

System
PURE LOFT

PURE LOFT

Top-class aluminium and glass system for minimalist and modern space division.

Pure Loft is a response to the latest trends in office space design but also a return to the factory interior style of the 1990s. The industrial version of the Pure system is characterised by muntins glued to the pane, which undoubtedly add character to the interior. The advantage of this solution is that it does not interfere with the wall structure and increases its aesthetic value at the same time.

Glazing	Acoustic insulation Rw
VSG 55.1	33dB
VSG 55.2Si	36dB
VSG 66.1	36dB
VSG 66.2Si	38dB
