IN SILENCE

IN SILENCE

The In Silence partition wall system is designed for spaces where acoustic comfort is key.

In Silence is a double-glazed system, characterised by top-of-the-line acoustic performance. Offering sound insulation of up to 53 dB, it is ideal wherever the aim is to create a quiet space. The In Silence system measures 125 mm in width and its profiles are 30 mm high, offering a functional solution for a diverse range of spaces.

Glazing	Acoustic insulation Rw
