

System

ULTRA SILENCE LOFT

Rw up to 57 dB

Highest acoustic parameters

Stable construction

The ULTRA SILENCE LOFT system is a double-glazed aluminium and glass system with structural muntins that combines modern design with functionality. The robust profiles, available in heights of 25 mm or 30 mm and a width of 100 mm, provide a stable structure, ideal for offices or commercial spaces. The ULTRA SILENCE LOFT system is distinguished by excellent acoustic insulation, reaching up to Rw 57 dB, making it the optimal choice for interiors where silence is of the utmost importance. Additional noteworthy features include concealed gaskets and the option to change the colour of profiles and muntins.

Double-glazed mullion system

Structural profiles 25 or 30 mm high and 100 mm wide in any colour from the RAL palette

Maximum height 4036 mm

Aesthetic and minimalist design

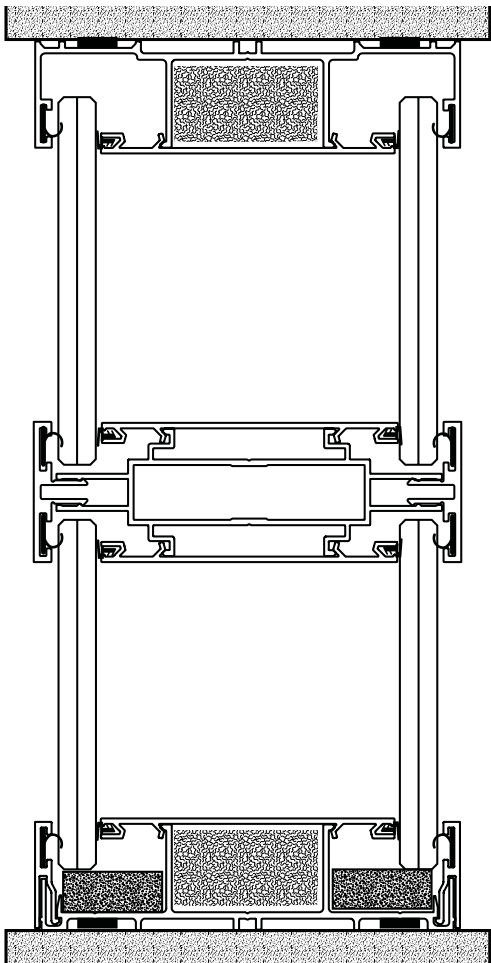

A possibility to install both horizontal and vertical mullions

Invisible gaskets
