

# Door Frameless glass door

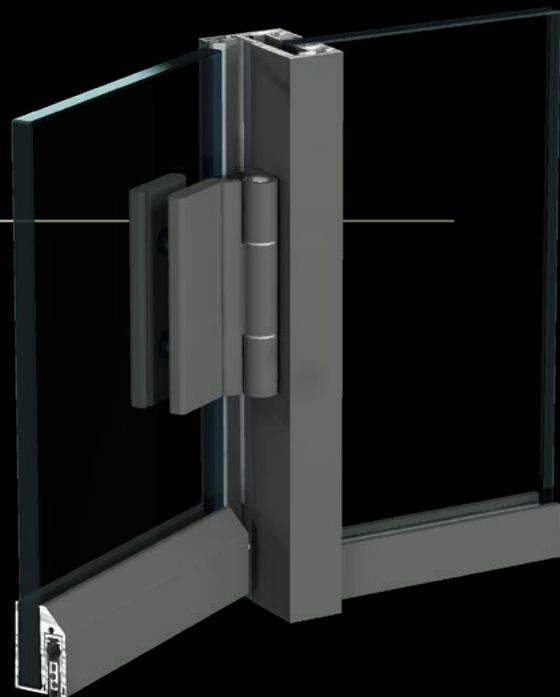

Rw up to 34 dB

Any colour from  
the RAL palette

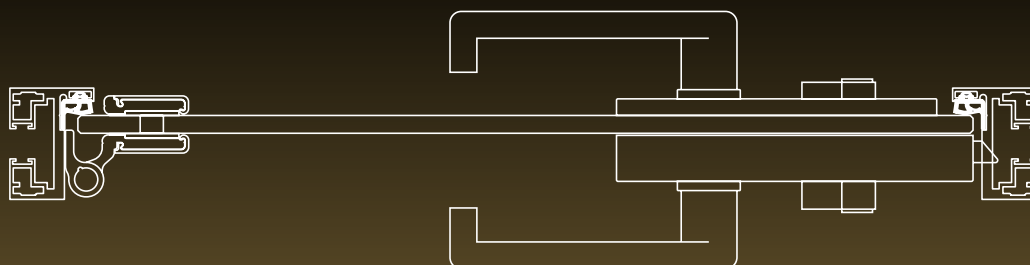

Minimalist  
design

Our all-glass doors are available in single or double leaf versions, with a maximum leaf size of 1200 mm x 3000 mm. They provide excellent sound insulation at a level of Rw 34 dB. The glass is 8 mm or 10 mm thick, and the frame profiles can be painted in any RAL colour of your choice. The fittings, available in silver anodised as standard, can also be painted in a different colour. **FRAMELESS GLASS** doors can be equipped with access control systems, door closers and aeration actuators, as well as optional blinds and side lights or transom windows, should you require them.
