

Doors

# Solid doors

Rw up to 40 dB

Natural wood veneer finish

Installation in any mounting hole

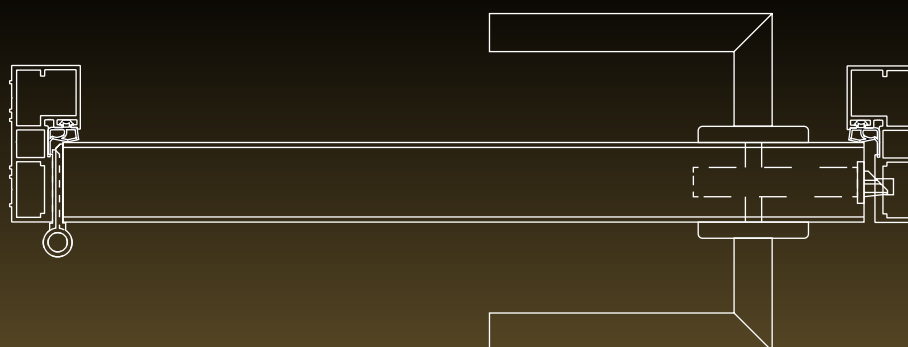

SOLID doors are available in a variety of versions, including laminated, veneered or painted, as well as single or double leaf. They can be tailored to suit a range of interior designs, offering customers a high degree of flexibility. These doors are characterised by acoustic insulation of Rw 32 dB, 38 dB or 40 dB and a 40 millimetre leaf thickness. The aluminium frame and hinges can be painted in any RAL colour, allowing for a high degree of customisation. SOLID doors can be installed in any assembly opening, including in a glass wall system.

Single or double leaf doors
