

System PURE AS

Rw up to 41 dB

Stable
construction

Modern design

The PURE AS is a single-glazed partition wall system that provides acoustic insulation of Rw 41 dB. Profiles with a height of 30 mm and a depth of 40 mm guarantee a stable structure, and the partition wall in this system can reach a height of up to 3200 mm and act as a partition on the entresol. The aluminium profiles are powder-coated in any RAL colour, allowing them to perfectly match their appearance to any interior design.

Single glazed system

Profiles 30 mm high and 40 mm deep in any RAL colour

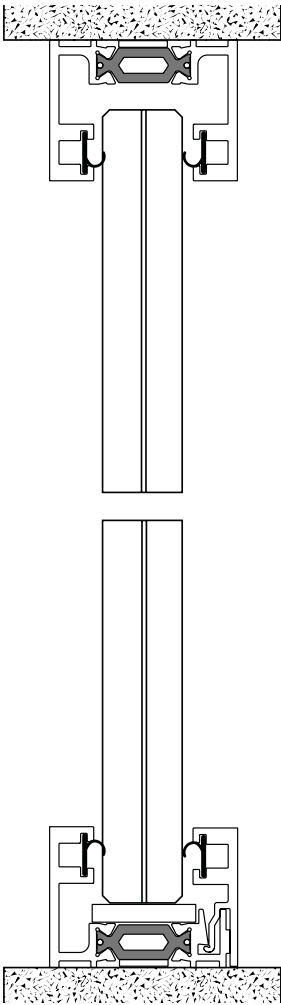

Maximum height 3200 mm

Can be installed as a partition on a mezzanine floor

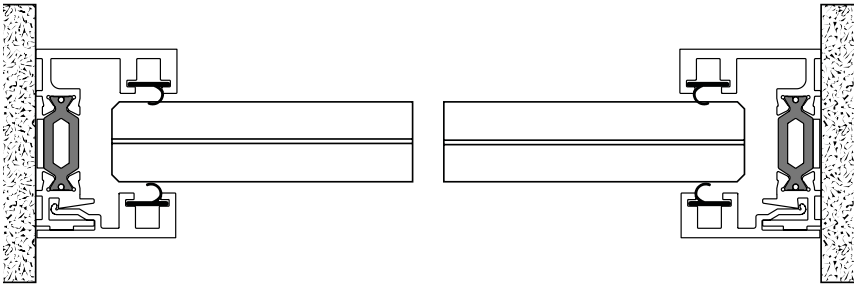

Possibility of adding stick-on muntins

National Technical Assessment: ITB-KOT-2019/0978
